

## BIO

---

A professional voice over artist since 2001, I have worked extensively across the Caribbean because of my natural cross-cultural 'Pan-Caribbean' accent.

Now taking my career 'Global', I've been heard in the US and UK, so far, and sought out because of my versatile and accessible sound that exhibits both North American & Caribbean elements (that can be emphasized or subdued when necessary).

Aspirations: animation, gaming, documentary, corporate, e-learning and lots more commercial work!
